

Averett College Formally Opens

The 65th session of Averett College was formally opened last night, the exercises beginning at 8:30 o'clock. The opening was largely attended by members of the faculty, students and townspeople. Prof. J. P. Craft presided.

The principal address was delivered by the Rev. Malcolm T. Taylor, rector of Ephiphany church, whose subject was "The True Nature of Education."

Dr. J. M. Shelburne, pastor of the First Baptist church, delivered the invocation. Then Prof. Craft made a few introductory remarks. He was followed by a delightful musical program. Eugen Putman, head of the music department of the college, rendered his composition, "The Nightingale Song." Miss Ruth M. Root, head of the vocal department, sang the aria from "Madame Buttercup."

At the close of the exercises Prof. Craft made a short talk in which he expressed his belief that the coming session would be the most successful in the history of the college.

100 BICYCLES TO BE GIVEN FREE

Every boy and girl now have the opportunity of their lives to obtain absolutely free, the highest grade bicycle made. These bicycles are going to give much pleasure, besides saving considerable time going to and from school. The Register and Bee have made arrangements to secure at least one hundred "Motorbikes," made by the Dayton Bicycle Co. and Columbia Roadsters, made by the Westfield Manufacturing Co.

These bicycles are going to be given to every boy and girl who secures only twenty-five yearly or renewal yearly subscriptions to the Register and Bee. This can be done in a few short hours. It is not a contest, but to every boy and girl who secures only twenty-five yearly subscriptions will be given one of the best bicycles made. Get busy now while subscriptions are the easiest to get. Send your name in now or better still drop in and get full details from the circulation manager of the Register-Bee. Come in and see the bicycle on display. You can have one just like it for a few hours of pleasant work.

CORFU IS STILL HELD BY ITALY

(By Associated Press)

PARIS, Sept. 11.—At the request of Baron Avezzano, Italian ambassador, the ambassador council postponed its meeting this afternoon until tomorrow. Baron Avezzano said he had not yet received instructions from Rome regarding the evacuation of Corfu.

Some nervousness has developed here over the efforts to settle the Corfu occupation before the measures are adopted for the satisfaction of Italy's demands and inaugurated. The falling in French circles appears to be that Italy might be taken at her word and withdraw from the Greek island as soon as the terms of the ambassador's proposals are complied with.

PART ON PINCHOT PLAN HAD BEEN ANTICIPATED

WASHINGTON, Sept. 11.—The chief features of the plan suggested by Governor Pinchot of Pennsylvania to President Coolidge, to prevent consumers from being victimized through increased anthracite coal prices this winter have been inaugurated by the administration, or are about to be.

Briefly, the proposal by Mr. Pinchot was that the Interstate Commerce Commission investigate anthracite freight rates; that the United States Coal Commission make public the cost of mining, production and cost in mine operation, and wholesale and retail distribution, and that he himself call a conference of Governors of anthracite-using States to consider profits of middlemen.

TWO LOVE SAME MAN AND WOULD WED HIM

RUTH WEBB (LEFT) AND HER TWIN SISTER, RUBY.

(Special to The Bee)
MARIETTA, Ga., Sept. 12.—Ruth Webb and Ruby Webb, twins, are in love. They both love the same man. And the man, they say, loves both of them.

He can't tell Ruth from Ruby, Ruby from Ruth. He can't tell which he wants to marry. When he makes love to Ruth he can't tell her from Ruby and when he makes love to Ruby he's not sure whether she's Ruby or Ruth.

The question is: "Can three live as cheaply as one?" And, if so—where?

"We'd both marry him," the Webb twins say, "if the law would let us."

He would, too, they say. He's in New York, and he writes them regularly. Every time he writes he has to write two love letters, one to Ruby and one to Ruth. The letters are different—not mere mimeographs!—and each is just exactly as ancient as the other. No favoritism here!

Ruby and Ruth are 21. They're blondes. They fell in love "at first sight." You see them both saw him at exactly the same moment. He saw them both at the same moment! He rubbed his eyes and looked again.

Yes, there were two of them! From that instant his perplexity began.

"I wish," says Ruby, "there was a law legalizing polygamy. We've simply got to marry the same man. All we've got to share everything. Why shouldn't we share a husband?"

"Why not, indeed?" says Ruth. "We wear the same clothes, and we never quarrel about who's to wear them. We'd share a husband happily, and we wouldn't quarrel over him."

Ruby and Ruth have never been separated, day or night, in their lives.

"And," they say, "we're not going to begin now. To be apart would break our hearts. Whoever loves one of us must put up with both of us."

The name of the sweetheart of the Webb twins? They won't tell.

"It wouldn't be fair to him," they say. "But we're glad to tell the world we love him. And at the right time, when we've found a solution to our problem, we'll tell. We agree, though, that he's the handsomest and sweetest thing you ever saw. We're crazy about him!"

Ruby and Ruth say they've even thought of going to Turkey and experimenting with polygamy—they're so annoyed with the funny laws here that put such restrictions on matrimony.

Sons of Veterans Complete Session

(By Associated Press)

ROANOKE, Va., Sept. 11.—The first day's program of the twenty-eighth reunion of Virginia division Sons of Confederate Veterans, was brought to a close tonight with the presentation of the "official ladies" of the reunions at the city auditorium. Governor E. Lee Trinkle, Colonel James P. Woods, of Roanoke, and officers of the Veterans and Sons of Veterans delivered the principal addresses.

Briefly, the proposal by Mr. Pinchot was that the Interstate Commerce Commission investigate anthracite freight rates; that the United States Coal Commission make public the cost of mining, production and cost in mine operation, and wholesale and retail distribution, and that he himself call a conference of Governors of anthracite-using States to consider profits of middlemen.

More than three thousand persons attended the exercises in the flag-decked assembly room of the city auditorium and thunderous applause greeted every reference made to the remnant of the thin gray line that stood its ground under the great chieftain Robert Edward Lee.

The association was thrown into an uproar when the band struck up the strains of Dixie and the tottering heroes of the "lost cause" responded with the same yell that they sounded as they swept forward across battlefields of the sixties as the dying notes of the glorious southern song faded out in the big auditorium.

All sectional feeling was forgotten when the band burst forth with the national anthem, "The Star Spangled Banner" and the followers of the Stars and Bars arose with a mighty shout in honor to the flag that they once fought against.

Dr. Lawrence T. Price, of Richmond, led the grand march to the stage followed by Governor and Mrs. E. Lee Trinkle, members of his staff, officers of the Veterans and Sons of Veterans and the "official ladies."

E. H. Birchfield, commander of the Albert Sidney Johnson camp, Sons of Confederate called the meeting to order and Bishop R. C. Jeffs of the Episcopal Diocese of Southwest Virginia was called upon to offer prayer.

Colonel William R. Phelps, commander of the third brigade, S. C. V. was presented by Mr. Birchfield and he in turn introduced Walter L. Hopkins of Richmond, commander of the Virginia division, Sons of Confederate Veterans, who took charge of the meeting and delivered the address of welcome to the veterans.

Commander Hopkins stated it is the duty of everyone to teach the southern side of the great conflict and to see that the comfort of the veterans was looked after. He thanked the various organizations in the city in the splendid arrangements made for the reunion.

Colonel James F. Woods delivered the address of welcome on behalf of the city of Roanoke and Albert Sidney Johnson came to the aid of the Confederates, he said, more recent in defeat, if defeat it were, and won as a laurel wreath of glory. Roanoke county, which furnished 1,194 men to the Confederate armies, welcomed the veterans, he stated. One lesson was taught during the Civil War, Colonel Woods said, and that was that armies could decide battles but not principles.

DRY LAW WILL NOT BE REPEALED

(By Associated Press)

COLUMBUS, O., Sept. 11.—Ohio's two United States Senators, S. D. Ross and Frank B. Willis, in address tonight before the national convention of the W. C. T. U. in session here declared that the 18th amendment and its enforcement provisions are an organic law and will never be repealed.

Both Mr. Ross and Mrs. Willis, declared, however, that strict enforcement of the 18th amendment is necessary if prohibition is to be successful.

The convention, to day, passed a large number of resolutions endorsing the 18th amendment; a world court; law enforcement; campaign against habit forming drugs; campaigns against liquor in the Philippine Islands and world prohibition.

The city water department has begun the task of extending the city's water main from its present terminus up to the extension of South Main Street to Danville Military Institute. The work will cost about \$6,000 of which amount the school will pay \$3,000. The pipe will be cut under tracks of the Southern Railway. More than two weeks will be taken in doing the work and it is not likely to be started in earnest just yet as the pipe shipment has been delayed.

Postmaster E. D. Lumpkin this morning explained his failure to be in the police court yesterday to answer charges of shoplifting, preferred against him by H. R. Powell, of Cretin. Mr. Lumpkin said that he had never been summoned and he was called to appear in court in the midst of a conference he was having with postoffice inspectors and one which, he said, could not be broken off. He said that he was ready to appear any time when summoned except today when he said he had a number of postoffice matters to attend to. The case will probably be heard tomorrow though Mr. Lumpkin stated this morning that no definite date has been set.

Approval of the compromise reached in the contest over the will of the late John E. Hughes, will be given probably during the October term, it was learned today. The action taken yesterday was the entering of a decree ordering the bill and the answer by the executors to be filed. It now remains for answers to be filed by the orphanage trustees the trustees of the General Hospital and those business associates of Mr. Hughes who were represented in the will.

Postmaster Lumpkin has been expecting for the past thirty days plans and specifications for structural alterations of the lobby of the postoffice in order to give better service. He is also awaiting authorization to employ additional clerks. Mr. Lumpkin this morning admitted that the situation is bad and that the congestion at the only window where stamps are sold and packages are weighed results in delays and that he was doing all that was possible to bring about some decisive action. One evening a few days ago at five o'clock patrons seeking stamps were delayed for nearly fifteen minutes as a large number of parcels, for delivery, parcel post were weighed fifteen people gathering and waiting for service.

Mrs. Mattie Reynolds, 537 North Main street has asked the police department and the Community Welfare Association to assist her in locating her thirteen-year-old daughter, Mabel Reynolds, who left her home on the evening of June 23rd to go to a picture show and who has not been heard from since. Mrs. Reynolds says that she has information purporting to show that she left Danville in an automobile with Horner Miller, formerly an employee at the ice factory and that they have been married. Miller she says, is from Texas and she thinks it probable that they have gone there. Such information as has been obtained by Mrs. Reynolds tends to show that after leaving Danville they went to North Carolina, where they were married, the consent of the mother not being given. Mrs. Reynolds is anxious to receive some information bearing on the whereabouts of her daughter.

Chairman F. W. Townes of the council public works committee will hold an early conference with C. G. Holland relative to the series of public concerts to be given by the Coast Defense band. Mr. Townes is in favor of having the concerts alternate in different parts of the city and does not approve of all of them being given at Balou Park. He said he would favor some at Green Street Park, some at the Memorial Mansions, some in North Danville and others at Balou Park. He expected to make arrangements this morning but Mr. Holland was out of the city.

MORNING STOCK LETTER

(Courtesy Thomson and McKinnon.) NEW YORK, Sept. 12.—There is a well established habit to demand an explanation for every move in a stock or a point or more—this demand is supplied by some volunteer explainers ready with an answer on anything and the latest is that Cosden is to be bought by Standard Oil, of Indiana. Of course we all know that Standard Oil doesn't advertise its plans in advance but that doesn't make any difference, it's an interesting story. Regardless of this, I don't think I make a wild guess when I say that at the end of the trouble in oil the big companies will be very much bigger than they are.

Watch Germany and France! This move looks real and remember that we have a good many billions at stake which will help quite a little when collected.

MORNING COTTON LETTER

(Courtesy Thomson and McKinnon.) NEW YORK, Sept. 12.—Prices in Liverpool are lower than ever and therefore more disappointing to the bush standpoints. There was only \$10 over New York Operators who could not see that the trade was taking everything in sight at 23 1-2 cents for distant positions a few weeks ago and were extremely bearish then, bought very serious cotton outlook and mills have bought very little. But the most sensational advance on record excepting 1921 and that was from a 12 cent level—not 21 cents—makes conservative interests a bit cautious. The South still has its crop to market.

VETERAN PASSES AWAY

BALTIMORE, Md., Sept. 11.—McHenry Howard, Confederate veteran and lawyer, died today in his 85th year at his summer home in Oakland, Maryland. He was a grandson of Francis Scott Key. Mr. Howard saw service as an ordinance officer of the Maryland and was once wounded. He was the author of "Recollections of a Maryland Confederate Soldier and Staff Officer under Johnson, Lee and Jackson."

ALLIED VETERANS SEEK WORLD PEACE PROGRAM

INDIANAPOLIS, Ind., Sept. 12.—Delegates of the American Legion have left here to join with representatives of allied veterans overseas in some definite expression for world peace.

The occasion is the annual convention of the Intersallegies Veterans' Federation, which meets in Brussels Belgium this month. Officially, it is the Federation Internationale des Anciens Combattants, which is more popularly referred to as the Fidac. It is an alliance of former soldier organizations in France, Great Britain, Italy, Belgium, Roumania, Serbia, Czechoslovakia and the United States.

The Americans are prepared to assume an important part in the development of a program for cessation of war. Their chief proposal will be for an international conference for limitation of air armament and building programs of war aircraft. The proposal for such conference follows the general line of the 1921 "Washington Conference" on naval limitation.

National Commander Alvin Owsley has declared that the nations of the world are now engaged in a race to

win the beauty contest.

My home is in New England. We have there, perhaps the greatest concentration of beauty in the land. And these beauties are careful of their looks. Thousands of women have asked me to tell them the powders they employ.

They are very costly powders, made to meet supreme requirements. We care little what we pay. But very few I hear, would pay what we do for them.

The makers, however, have consented to make these same powders for me, in quantities, under my name. And at ordinary prices. So all who wish may now enjoy these superlative creations.

MY POWDERS

The kind they use in Movieland

By Edna Wallace Hopper

In person and in print I am telling millions of women how I multiplied my beauty and retained my youth. And I am supplying to all who wish the very best I use.

Not as a beauty expert or a maker of cosmetics I am neither. My work is on the stage and screen. I am simply helping experts make up the formulas for which I searched the world, and place them at your call!

These beauties have made me a famous beauty. And they have helped me looking like a girl of 15 after 32 years as a stage star.

What beauties use?

TWO REASONS.

Miss Cohen believes that there are two reasons for this. First, that the American girl is a composite type with the best of all nations in her, and, second, because she knows so well how to dress.

"The American girl can express youth in her clothes as no other girl in the world can," she continued.

The English girl, naturally tall and athletic looking, always manages to look older and more angular than she really is in her pictures. The French girl is bound to look artificial.

"Occasionally a foreign actress has a worldwide popularity, but she is the exception that proves the rule."

Danville Library Notes

The readers of the Literary Digest International Book Review have been asked by the editor to send in lists of the ten best books of the century—the ten books which—in their opinion, were the best books published in this or any other country since the year 1900.

All the lists are to be compiled into a single composite, and the ten

books receiving the largest number of votes will be announced at the end of the contest, November 15.

The complete list has already reached a total of 198 different titles.

Thus far Arnold Bennett's "Old Wives' Tale" and Hutchinson's "Hi Winter Comes" seem to be in the lead, but others follow close on their heels.

The greatest number of those on the list so far are to be found in the Danville Library.

The following are a few of them selected at random. The entire list is in the hands of the librarian and may be had for the asking:

The Shepherd of the Hills, by Harold Bell Wright.

The Virginian, by Owen Wister.

Ethan Frome, by Edith Wharton.

The Case of Richard Maynell, by Mrs. Humphrey Ward.

The Simple Life, by Charles Wagstaff.

Companions Books, by Henry Van Dyke.

**Veterans Rename
Present Roster
Of State Heads**

ROANOKE, Va., Sept. 11.—Re-election of the present officers and the adoption of a resolution endorsing the plans of the board of trustees of Washington and Lee University to Improve Lee Memorial Chapel at Lexington were the principal features of the annual meeting of the Virginia division, United Confederate Veterans, held here today.

Major General W. B. Freeman, commander of the Virginia division, which is one of the fifteen state divisions in the United Confederate Veterans organization, called the meeting to order and the invocation was delivered by the division chaplain.

The annual report of Major General Freeman stated that the organization was in splendid condition and was holding its own. The major general referred to the organization of Sons as splendid movement and felt sure that the total would grow and that annual reunions would be held until the last veteran was dead.

At this point the meeting was turned over to Brigadier General Homer Atkinson, who took the chair and the election of officers was in order.

The name of present Major General W. B. Freeman was placed in nomination for re-election and he was elected by a rising vote.

Brigadier General Homer Atkinson, of Petersburg, was re-elected as commander of the first brigade, a rising vote. The brigade is composed of the camps located in the territory east of the line drawn from Alexandria to Washington.

Brigadier General William P. Nye of Radford was re-elected as commander of the second brigade. This brigade is composed of camps located west of the line of the first brigade to the West Virginia border.

Brigadier General A. W. Compton was re-elected commander of the third brigade composed of camps located in the Valley of Virginia.

Brigadier General H. Clay Michie, of Charlottesville, was re-elected commander of the fourth brigade composed of camps located between the James river divisions and the main line of the Chesapeake and Ohio, west of Alleghany county.

Adjutant General and Chief of staff to Major General W. B. Freeman at present is Colonel W. S. Archer, who will continue in office.

Dr. Lawrence T. Price, of Richmond was called upon to address the veterans on behalf of the Sons. He pledged the loyalty of the Sons to the veterans and stated the organization of the Sons of Veterans was growing and was ready to take up the responsibilities or assist the Veterans in any way possible.

The national reunion of the Confederate Veterans will be held in Richmond in 1926, if the Sons are able to get it, and every five years thereafter, as long as a single Veteran remains alive, Dr. Price stated.

Mrs. James A. Scott, of Lynchburg, president, Virginia division, United Daughters of the Confederacy made a short welcoming address to the Veterans.

The question of endorsing the plan of the board of trustees of Washington and Lee University to rebuild the Lee Memorial Chapel was presented to the meeting by Major General W. B. Freeman, in the form of a resolution. He stated that the building at the present time was nothing but a fire trap and entirely inadequate to care for the needs of the school.

Colonel West vigorously opposed the resolution on the grounds that the building should be allowed to remain as General Lee had planned it as a lasting memorial to him. Colonel West pointed out that other buildings were preserved and stated that if Washington and Lee wanted a chapel the Confederate Veterans would help them to build it but would not sanction the remodelling of the shrine of Lee.

After some further discussions the motion was put and the Virginia division, United Confederate Veterans, went on record as endorsing the plans of the board of trustees of Washington and Lee University and the meeting was adjourned.

500 VETERANS ATTEND

(By The Associated Press.)
ROANOKE, Va., Sept. 11.—More than five hundred heroes of Dixie were on hand this morning when the grand camp of Virginia, Confederate Veterans, was called to order by Grand Commander R. M. Colvin of Harrisonburg.

Rousing cheers and an occasional rebel yell greeted the various speakers on the morning's program. It is the opinion of the officers that this is the greatest encampment held during the past twenty years.

Sons' Daughters and the citizens of Roanoke seemed to vie with each other in honoring the wearers of the gray and flag headed automobiles were on hand all day to carry the veterans to all parts of the city.

A fife and drum corps attracted a great deal of attention on the streets today. It was composed of two Veterans of '65 and one "Son" who handled the bass drum.

The business houses of the city were profusely decorated with Confederate colors and Roanoke has taken on a holiday air for the reunion which will continue through Thursday.

A speech by Governor E. Lee Trinkle and the address of welcome by Mayor R. J. Fishburn, and a short business session was the feature of the first day's meeting of the grand camp.

Governor Trinkle addressed the veterans.

Miss Margaret Lockner, of Allentown, Pa., takes Paw Paw and rejoices at Gain of 15 Pounds

"Before using Munyon's Paw Paw Tonic I was generally run down and felt tired all the time," writes Miss Margaret Lockner, 235 No. 8th St., Allentown, Pa. "I had no ambition, was nervous and depressed and had no appetite. Nothing tasted good.

"But, now—what a change! I have gained fifteen pounds, have a wonderful appetite and feel fine all the time. I enjoy singing and dancing like I used to. And I owe the change to Paw Paw Tonic. It has given me plenty of pep and energy and my former trouble has seemed to have gone entirely. It certainly is a fine tonic."

Here is, indeed, a convincing argument in favor of Munyon's Paw Paw Tonic. It is only one of many testimonials, however, that are continually pouring in from grateful women and men everywhere, whose suffering it has relieved.

Do YOU have similar trouble? Is your stomach out of sorts; do you feel tired out and run down; do you sleep poorly; do you have bad appetite, with no enjoyment of your meals? Then, do not hesitate one moment to take Munyon's Paw Paw Tonic. Buy a bottle today at your druggist's and get relief. It costs only \$1 a bottle, a absurdly low price, in comparison with the good it will probably do you. Get a bottle today. Ask for Munyon's Paw Paw Tonic.

**CORFU ISOLATED
MORE THAN EVER**

BY PAUL WILLIAMS
(By The Chicago Tribune.)

CORFU, Sept. 11.—Corfu, always remote, finds itself more isolated than ever from the affairs of the world and at a time when it again figures importantly in them.

From morning until night, its worthy sons, the only town steam floats, after the torrential rains, are crowded with natives and tourists. They sit about, mostly topped tables sipping coffee and raki and speculating upon their situation. The ceaseless buzzing of their conversation is not affected by the presence of numerous officers of the occupationary force who are discussing the same subject but from a different angle.

Greece asks Greek will Greece pay the \$50,000,000 lire indemnity for the murder of the Italian officers on the Albanian boundary commission.

Some argue that the five days in which the sum was to have been handed over already have elapsed and it is too late now. The young nationalists assert that the Italians cannot remain here. The older heads ask who is going to put them out.

Passive resistance is an unknown quantity here. Corfu's patronage of an Italian opera troupe has dwindled to almost nothing and no one cares yet to listen to concerts by the military band, but otherwise business, except for shopping, continues as usual. No act of violence has been committed and none is expected.

Business is better than it has been for years owing to the presence of 16,000 officers and men and that to the Greeks means much. The narrow streets, from which a reeking steam float, after the torrential rains, are crowded with natives and tourists. They sit about, mostly topped tables sipping coffee and raki and speculating upon their situation. The ceaseless buzzing of their conversation is not affected by the presence of numerous officers of the occupationary force who are discussing the same subject but from a different angle.

The Greek military, consisting of 150 officers and men, the Greek governor and the chief of police have been expelled. Otherwise there has been no interference with the local government except the appointment of an Italian captain as port officer. The local Greek police are not serving but it is expected that they will return but it is expected that they will return to work this week. In the meantime the city patrolled by Italian soldiers and there are no disturbances.

**WIRE REPORTS ON
MARKETS TO THE
FARMERS OF N. C.**

RALEIGH, N. C., Sept. 11.—The leased wire reports on far product markets are now available to North Carolina farmers, a division of markets supplied with reports direct by telegraph from the leading product markets of the country having been instituted by the North Carolina Department of Agriculture and State College in co-operation with the United States Department of Agriculture.

The leased wire already has been established and Correll Shumaker, director of the service in this State, is working out plans whereby he might give the best market report service possible to the farmers of North Carolina.

Mr. Shumaker receives frequent reports each day on the receipts, actual prices and value of the live stock markets at Chicago, Jersey City, Pittsburgh, Baltimore, Richmond and Atlanta. He also gets daily reports from the leading markets on apples, Irish potatoes, sweet potatoes and other farm products in season. Within the near future he says he hopes to be

able to furnish inquirers with reports from the cotton and tobacco markets.

On request, Mr. Shumaker says, he can obtain reports from the principal markets on any farm product being marketed. If farmer wants to know what onions are selling for in New York, he can obtain the information by directing an inquiry to Mr. Shumaker, care Division of Markets, Department of Agriculture, Raleigh, N. C. Information concerning my other farm product markets can be secured in the same manner.

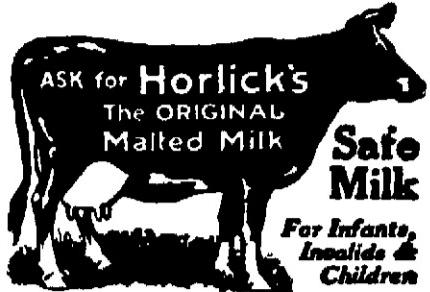

Mr. Shumaker says he intends to establish a service within a short while for supplying weekly newspapers, individuals and other parties who require it with weekly market messages.

Agricultural officials here say they believe the market reporting service will prove of great advantage to farmers of the State in aiding them to sell their products at opportune times and at the prevailing standard prices.

EXPECT GREAT THINGS in the NEW CADILLAC

Even the superb quality which you have long associated with the name Cadillac is no adequate measure of the merits of the New V-63.

The simple truth is that Cadillac has advanced its own standards and achieved, in this car, heights of quality which are strictly new.

Your attention is directed, particularly, to these three elements:

The New Cadillac V-Type 90°, 8-cylinder engine—harmonized and balanced by entirely new principles of design to a degree of smoothness unapproached in automotive manufacture.

New Body Styles—destined by their graceful, symmetrical design, distinctive

finish and exquisite appointments, to be the center of admiration in any company.

Cadillac 4 Wheel Brakes—a safety factor developed with the care and thoroughness characteristic of Cadillac engineering.

New delights await you also in enhanced dependability, ease of control, riding restfulness and, indeed, in every phase of car performance.

It is entirely logical that Cadillac, pioneer leader of eight-cylinder manufacture in America, should now raise multi-cylinder practice to an even higher pitch of excellence.

This is exactly what has happened in the New V-63, and Cadillac urges you to approach this fine car with great expectations.

DEMOCRATIC AMMUNITION.

The manner in which discussion concerning the correspondence which passed between Bert R. Powell, of Gretna, and former Congressman Bascom Slemp has been revived strongly suggests that the political incident is destined to be made an important issue in the quadrennial tilt between the two parties. A few days ago political writers for Democratic papers included in their despatches from Washington the most telling of the letters which were read before Congress in the Paul-Harrison contest and which had already been published. Repetition of the letters at this time followed by condemnatory editorial comment in many of the leading Democratic newspapers, together with the coincidental statement made here yesterday by Mr. Powell himself that he was holding "heavier ammunition" in reserve are significant when viewed in the light of political strategy. The logical conclusion to be drawn from these tactics is that an issue is to be made of the appointment by President Coolidge as his private secretary of a man who resorted to methods of filling the Republican campaign coffers with money which, in one of his letters he admitted might bring the party into disrepute. Just what Mr. Powell is holding up his sleeve is not known and he has carefully avoided intimating what he holds in store. That there is a good deal of unpublished literature on the patronage question seems fairly certain, judging from the Gretna man's expression that they would be published "in compact form" and, what is even more significant "at the proper time."

QUEST THE RECKLESS DRIVER.

The succession of automobile accidents in the vicinity of Danville last Sunday which resulted in painful injuries to at least two persons, calls for an indignant protest. None of the accidents could be classed as "unavoidable" in the accepted sense and the most serious one in which a Danville woman was severely hurt was a disgraceful piece of road hogging for which somebody should be punished. If a decent family of people cannot enjoy their only day of leisure by a quiet afternoon ride without being crashed into by recklessness—if not a drunken driver—and suffering possibly permanent hurts as well as a ruined car, there is little consolation in owning a pleasure car and a Sunday jaunt becomes a peril and a tax on the nervous system.

Accepting the story of eyewitnesses, the driver of the damaged car did all that was humanly possible for any careful driver to do. He drew partly off the road and almost stopped to allow passage to the mauldin chariot, but that was not enough. Even though he had the road to himself he plowed into the almost stopped car, turned it over, injured the occupants and then in a futile effort to avoid consequences removed his license plate and fled with it. It seems another accident, we are reliably informed, to charge the careful driver with responsibility for the accident. We know not who the man responsible for the accident is but there was a flagrant violation of not only common decency but of the simple rules of the road. It is in short an opportunity to apply vigorously those laws which have been made to protect users of the highways who practice the elemental laws of safety and common sense.

COLOR LURES.

Fishermen and campers who want to be left alone by mosquitoes should wear yellow clothing. Investigations

by scientists at Cambridge University in England disclose that mosquitoes stay away from yellow, having an almost unanimous aversion for it. On the other hand, these buzzing biters flock to navy blue with great joy, it being their favorite color. Light blue, they avoid.

People who have lived in a mosquito country know that these pests are attracted by light, like moths, and naturally the best way to keep them away is to sit in darkness at night. Mosquitoes also are attracted by the scent from warm living bodies. Flies, on the other hand, are drawn by the odor of carrion or other decaying food. The Cambridge scientists check up and confirm the belief that flies and mosquitoes never travel long distances except when carried by the wind. They breed nearby. An old tin can full of stagnant water is a natural mosquito incubator. Flies multiply fastest where there is a stable or garbage they can reach.

As far back as Darwin, it was proved that many insects, especially bees and butterflies have a color sense and color preferences. Flowers display the colors that lure the insects that distribute the flowers' pollen for cross-fertilization and reproduction. Insect life is easily the greatest natural enemy of man, next to germs. Science in studying insects is waging a sort of war for all of us.

MAKING HAY IN THE MEADOWS OF DAN.

(New York World.)

Grimly the Democratic National Committee continues to publish extracts from the financial-political correspondence which flowed steadily between Virginia and the office of Representative C. Bascom Slemp of that State, now come into high place as the secretary to the President. Since the gist of the correspondence was once the subject of a denunciation in the House of Representatives, its tenor must have been directed to President Coolidge when he selected Mr. Slemp as assistant President. Therefore the revelations are imposed as establishing the political methods approved by Mr. Coolidge for the political standards of a President mean much to the people of the country.

The new correspondence reveals Mr. Slemp's secretary, Mr. Howard, busily making hay in Meadows of Dan, a mountain Virginia Post Office. As usual, Benjamin Powell was on the other end, engaged in discovering how much the appointed to the job would give the Republican party. He bore a card, signed by Mr. Howard, assigning him the power to name the new Postmaster. Since the certified applicants were there, Dulcette and the destination of the contribution to the Republican treasury. Mr. Howard constantly urged Mr. Powell to be careful and destroy the letters now published. Mr. Slemp himself joined in the admonition, writing to "dear Ben" as follows: "One must be very careful about this. It will bring the party into disrepute. * * * We must preserve our standing with the people and with the Administration." Mr. Slemp was needlessly alarmed. The correspondence, revealing him selling Post Offices on the auction block and making a Republican war fund of the receipts, was last year made public by Representative Hale, son in speech in the House. Yet President Harding continued to hold Mr. Slemp dear as a friend and adviser, and President Coolidge put him in an office where the higher the personal and political standards of the occupant, the better he serves the President and the people. What the people will think of it remains to be established. What confidence they can have in dealing with so confessedly practical a politician in the secretary's office will not be much. And on that practical politics the seal of Calvin Coolidge, descendant of the Puritans, has been placed.

The second book of Kings speaks of "golden calves" that were at Dan. The golden calf is Virginia. Dulcette is up and minted. In spreading the tiding to Beaufort, even telling it in Gath, the Democratic National Committee is doing the public a service.

CHINESE PRIEST BANDIT VICTIM

By JOHN POWELL
(By Chicago Tribune Service)

SHANGHAI, Sept. 11.—Father Melotto, the Catholic Chinese priest who had been held by Chinese bandits for eighty one days, and who was released a few days ago died on September 6 as a result of a bullet wound in the stomach. Reports from Hankow state that the bandit chief, Liou K. Chin, shot Father Melotto and escaped into the mountains.

The foreign press here is wrought up over the affair. The Times, a British paper, this morning says: "The dastardly murder of Father Melotto by bandits after holding him a prisoner nearly four months throws a lurid light on the chaotic conditions in China today and reveals in startling fashion the low water mark of foreign prestige in the land. The case of Father Melotto is in no sense an isolated instance, but part of the sorry record of Britain's role in China with an almost unbelieved background of rapine and lawlessness."

The newspapers refer to this as a culmination of incidents such as the Linchong outrage, when a train was wrecked and foreigners carried to the mountains, and they also refer frequently to the murder of Sir Arthur Coningham, R. H. Wimberley and J. W. White in Szechuan province a few days ago.

CO-OPERATIVES ADOPT STRONG RESOLUTIONS

It was even suggested that the association should exhibit all legal means for the protection of local numbers, writing the corporation of all co-operatives at meetings of the West, and in the end that they might become informed thoroughly of the principle of co-operative marketing. The resolutions committee was composed of W. F. Dunn, chairman; Frank Harris, Jr., J. V. King, Jr., and R. A. Thompson.

Scoop's Column

DRAIGES BRANCH, Sept. 12—(Grapvine Wireless)—All of the older citizens remember the days of the volunteer fire brigade, the hand pump and the bucket line. There were no fire alarm numbers to start off the firemen in the right direction, but a general alarm was sounded and the whole village turned out to locate the blaze. The old kerosene street lamps were very poor at best and often people ventured out after dark, so fire fighting at night was a serious undertaking.

In a sleepy village on the old A. & R. Railroad they had a fire brigade that was anything but up-to-date. One night a fire was announced by the violent ringing of the alarm bell atop the general store, and the sleepy brigade arrived at the scene of action to find the burning building a mass of smoke. No flames were visible from the outside.

The captain stumbled around and made a hasty survey. Then he lit his pipe and started to smoke.

"We'd better leave. It alone and let it burn up a bit," he said, "then we'll be able to see what we are doing."

RADIOGRAMS

BRING GOOD PRICES

KINSTON, Sept. 11.—The remarkable increase in prices of raw tobacco of the lower grades is causing growers in this vicinity to give more attention to the marketing of these grades than leaf of the better kind.

Some grades now bringing figures well above production cost would hardly have been worth selling last year, large planters say. Good tobacco is bringing prices nominally higher than last fall. The increase for the poorer grades is much more pronounced.

BOSTON, Sept. 11.—The world's champions continued their heavy hitting against Boston today, winning 10 to 0. Kelly, with a home run double and two singles, was four times at bat, while the feature hitter, John Watson, New York pitcher, who was suspended yesterday for breaking training rules, rejoined the team today and practiced with his mates, who have guaranteed to manager McGraw his good behavior for the rest of the season.

CINCINNATI, Sept. 11.—Pittsburgh strengthened its hold on second place by winning the final game of the series from Cincinnati today, 4 to 3. Benton pitched well but his support in the early innings was flagged, errors accounted for three of the Pirate runs. Morrison held the local team to five hits, two of which were triples by Duncan and Burns, which accounted for the three runs made off him. It was Morrison's twenty-second victory of the season.

DENY THAT ZEV IS BROKEN DOWN

(By Chicago Tribune Service)

SARATOGA, N. Y., Sept. 11.—Sam Hildreth, Rancocas stable trainer at Belmont Park, today refused to publish a report that the American three-year-old champion, Zev had broken down as the result of his win of the Realization Stake last Saturday. It developed that his laborious homecoming during the final quarter mile of that classic was the result of Zev's casting the frog of his right forefoot.

Hildreth stated that the colt is all right and would be ready to fill the bill if selected to run in the international match race against Papryus at Belmont Park on October 20. Hildreth stated that he would prefer to run the colt again, further foot injury by means of an aluminum plate, which will make it possible for him to go on training.

On Sunday Zev favored the foot to an uncertain degree but Hildreth, who is conceded to be one of the best men in America in the treatment of foot troubles of thoroughbreds, quickly remedied the trouble.

There is a strong chance that there will be no elimination test. Only a lukewarm feeling among owners is indicated by the entry to date for this event, for which My Own, Admiral Grayson's colt, is as outstanding as was Zev before the running of the Realization, for which My Own was not eligible. Hildreth is keen for a crack at My Own with his pet three year old.

BOSTON 3; YANKS 2.
NEW YORK, Sept. 11.—Howard Ehmk, who pitched a no-hit game against Philadelphia on September 7 held the American League champions to one scratch hit here today. Boston defeating the Yankees in the last game of the series, 3 to 0. Witt, the first player to face Ehmk hit a puzzling bouncer toward Shanks, which he cuffed with his glove and recovered, too late to save the fast Witt.

Three of the six hits of Piggras were made by Pitcher Ehmk.

MOTION IS OVERRULED

(By The Associated Press)

FORT SMITH, Ark., Sept. 11.—Judge Frank A. Youmans in United States district court here this afternoon overruled a motion to dismiss the suit of the Coronado Coal Company against United States and of America in which judgment is asked for \$2,292,000 as a result of labor riots in the Hartford Valley of Sebastian county, Arkansas, in 1914.

Grandstand Gaff

Fans Enthusiastic.

Great was the enthusiasm at “Hatcher's Main Street Grandstand” yesterday afternoon as the results of the Piedmont games trickled in and by evening, Winston's defeat of Raleigh braced up the crowd of fans gathered around but when the final Danville-Durham score hit the board the Fourth of July was completely outclassed. The city of Danville and the surrounding territory has never been so excited over the national pastime, and it is all because Manager Murphy has his hirings headed down the home stretch winners, or apparently so. The game here Friday evening, with Greensboro will likely draw the largest crowds of any regularly scheduled Piedmont game, and should Danville get in the post-season series with Greensboro and a chance of the pennant, Stonewall Jackson Park will swell up and “burst.”

Stand by Gang.

When the seventh frame opened yesterday the outcome looked dark for the Murphs. The Bulls led at that stage 4 to 2. But by taking advantage of the Goochmead bobbles and fighting on every play three runs were chalked up in both the seventh and ninth and one in the eighth. These rallies staged late in the game have the “pep” and “punch” but such desperate fighting in a post-season series will likely make some fan flop as his heart stops its “pop-pop.”

One More Game.

The odds now are seven to one that Danville will win second-half laurels from Raleigh. Duke Duncan's Capitols may be eliminated in two ways: If Danville wins, or if Raleigh wins all Danville will still top the Raleightites one-half game, if Haleigh should lose one game and win three while Danville drops four, the Tacobonics would take the second half by the same half-game margin. There follows three jumbles of figures, two are “Is’s” and the other a guess, catch the drift:

If Danville wins one and loses three while Raleigh wins four the final standing will loom up so:

Clubs: Won Lost Pct.
Danville 37 25 .597
Raleigh 37 26 .587

If Danville wins none and drops four while the Capitals win three and lose one, Greensboro will see:

Clubs: Won Lost Pct.
Danville 36 26 .581
Raleigh 36 27 .571

Judging by the manner in which both teams are performing Danville will win two and lose two and Raleigh will annex three out of four, a guess.

Clubs: Won Lost Pct.
Danville 38 24 .613
Raleigh 36 27 .571

Here's Luck Boys.

As the season progressed it was evident Murphy had many players who were destined for higher company, and as the final curtain nears the information comes and will continue to come of the side of the players who are near to bringing Danville her first Piedmont pennant. This fighting club of Murphy's player by player, has won the heart of Danville fandom and it will be with regret the fans will see any member of the outfit leave the city for good, but at the same time they will carry with them the well-wishes of every one in the city. Their success as they fight their way up probably to or in the big time will be watched with interest by every fan and fanette who turn out to see them perform here. The Birmingham club of the Southern Association, known among their followers as the Barons will do doubt draw the heaviest lot of Tobaccanists in Texier, Twombly and Cochlin. The sale of Danville's star outer gardener and one of the league's best players along with that of Texier, last week, is a shock and assistant Washington and Lee coach, and Dave Cochlin, one of the best young receivers in the minors, has been announced by Pilot Herz. More will come later but the boys are virile and now they are scrapping for the hunting. Friday and Saturday will be the last chance to see the present club as a whole perform regularly scheduled games. Give 'em the glad hand.

Herb Hits Hard.
Pilot Murphy broke back in the line-up yesterday in the Durham contest and handed out a couple singles. Herb's stick once caused the loss of more peaceful slumber among twirlers than a guilty conscience, and if his lay-up means he has returned to usual form, Danville has a bright chance of trouncing Greensboro, that is if Duncan doesn't pull a miracle and the Tobaccanists take a disastrous slump.

Maitland to Charlotte.
The Durham Sun carries the following dope on Sojourner Rob Maitland, Danville pitcher, who beat the Bells last Saturday, has signed contract with the Charlotte Hornets for 1924. He is one whale of a good pitcher, and should make Dick Hoblitzel a valuable man.

According to our understanding Rob has been the property of the Hornets but was out picking up the “experience.” Charlie Carroll thought he didn't have what the “Cudsie” Harris dispute led Murphy in a hole and a good hurler was needed at once. Maitland was picked up and has proved a “find.” No doubt considering

the right balance of costly Turkish and choice Domestic tobaccos, proportioned by experts—that's why Chesterfield's “satisfy” and that's the utmost a cigarette can do.

CHICAGO, Sept. 11.—Physical handicaps mean nothing to the enthusiastic golfer.

Loss of an arm, for instance, does not mean that a player cannot become proficient in golf.

Eddie Reilly, a Chicago pro who has been playing the game for 19 years, invariably plays in the low seventies. Some years ago he suffered the loss of his right arm, although he assumes the stance of a right-hander. Four years ago he played the Manistee Park course in MI. his best score.

Two years ago for this extraordinary play on the part of one-armed professional, the amateur ranks present John Funk of El Reno, Okla. Funk, while not claiming the low scores that Reilly is able to attain, plays a highly creditable game.

The par for the El Reno course is 72, and Funk always plays it between 80 and 85. While Funk plays well from the tee, his best shots are the approach and putt.

WILLS NO NEARER AMBITION THAN EVER

NEW YORK, Sept. 11.—Harry Wills, colored heavyweight title challenger, is further away from realizing his ambition to mix with Jack Dempsey than ever. Supreme Court Justice Harlan yesterday denied the application for a writ of mandamus filed by Paddy Mullin, Wills' manager through whom the latter sought to restrain Dempsey from meeting Luis Firpo at the Polo Grounds next Friday night and force him first to meet Wills.

Seven fight managers and Mullin himself were on hand in the Brookly Supreme Court to hear the decision.

When it was rendered Mullin left the court room, dejected and declining to say what his next move on behalf of Wills would be.

Francis Hunter World's Champ In Tennis Single.

(By The Associated Press)

PHILADELPHIA, Sept. 11.—Francis Hunter, former Cornell tennis captain and finalist in the world championship tournament at Wimbledon this year, won the most sensational match of the second round e play in the national lawn tennis singles championship on the courts of the Germantown Cricket Club thi afternoon.

His record since he joined the Virginians is that if he is or has been the property of Charlotte they were glad to get him tied up for next year.

Trailing behind René La Coste, the French school boy, in the first set, Hunter, by a sensational rally, pulled off a victory in 5 set match. The scores were 1-6; 6-2; 6-1; 6-3.

Hunter's victory, with its elimination of the French star, reduced the field of foreigners who will enter the third round tomorrow to four players. Of the twelve American who came through their matches to day all four members of the Davis cup team are included.

Wm. T. Tilden, 2nd, national singles champion, romped to a victory in straight sets over Cedric Major.

New York, Wm. Johnston world champion, removed Jose Alonzo of Spain from the tournament; Vincen Richards of Yonkers, N. Y. won Saturday, while Greensboro will likely draw the largest crowds of any regularly scheduled Piedmont game.

Both Danville and Greensboro and a chance of the pennant, Stonewall Jackson Park will swell up and “burst.”

When looking for a lost ball, what does the etiquette of golf call for said players to do relative to matches coming up?

Players looking for a lost ball should always allow other matches coming up to claim it. It is customary to so ignore players who are following. Having given such a signal it is a rule of golf not to continue their play, even though they should find the ball immediately after signalling the other players to stop.

The four foreigners who won the matches were B. L. C. Norton, the South African, Manuel Alonso, the dashing Spaniard; Jacques Brugnon French Davis cup player and F. R. Leighton Crawford, of England.

Weather conditions were ideal to play. Approximately seven thousand persons saw the six matches. In addition to the startling victory Hunter, the triumph of Vincen Richards over Snodgrass, who has defeated him a month ago at Newport, the case with which Tilden disposed his Davis major in 45 minutes, and all the other games.

Manuel Alonso put out Iao D. McInnes, youthful Davis cup player from Australia, stood out as the feature of the day.

Hunter owed his victory over La Coste to his resourcefulness, physical condition and his courage in persisting in playing a net game.

Richards gained sweet revenge in his match with Snodgrass for his earlier season, defeated the Yonker youth was the personification of steadiness. His placements were few but he made the Californian run hard that he was constantly out of position and hit into the net or out of the court.

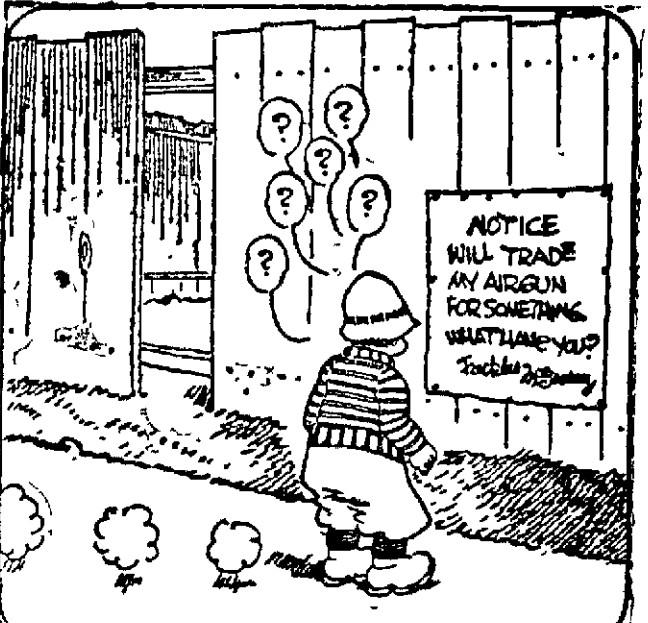

Manuel Alonso's victory was sensational. Pitted against Davis cup player from Australia, young McInnes, the Spaniard had all his spots working ruthlessly and cut his antagonist down with only two games Alonso in deep court. When the Australian tried to come to mid-court Alonso dashed past him for many places.

Tilden's triumph was the work of a master of the game. Though opposed a player far below his caliber and playing a leisurely game in the back court, the tall champion showed marvelous command of his deep forward stroke.

PLASTERERS STEP HIGHER
IN PLUTOCRATIC CLASS

(By Chicago Tribune Service)

CHICAGO, Sept. 11 - Lordly plaster-
ers who look down on bank presidents
and college professors as base men-
ials, grinding out their lives for a
miserable pittance, stepped a little
further into the plutocratic class to-
day when they were given a wage
of \$15 a day of eight hours.

However, the \$15 is merely a start-
ing point. Plasterers are so scarce
that contractors gladly pay a fat
bonus. In some cases this is \$16 a day,
paid in advance. Nor does the
eight hours mean eight hours of lab-
or. The plasterer arrives in his car
and, like the equally haughty carpenter,
requires an hour or so at the begin-
ning and end of the eight hour day
to park his car, change his clothing,
discuss the topics of the day, consult
his baseball pool tickets and occa-
sionally take a spin away from work
to the nearest soft drink parlor.

However, not all the plasterers

patronize the soft drink places. In
and around Evanston, a number of
minister and divinity students have
temporarily laid aside the business
of saving souls to earn \$16 and occa-
sionally a day and it is admitted that
some of them will never return to the pul-
pit.

R. O. GARRETT ON TRIP

AMHERST, Va., Sept. 11. - Robert
O. Garrett, clerk of the Circuit court
of Cumberland county; C. M. Smith,
treasurer, and Mr. Agee, chairman of
the Board of Supervisors, motored to
Amherst today, reaching here about
12 o'clock. They sought Robert Bur-
wood, clerk at Hill Buggy Company and
J. E. Watts, contractor, who were
among the jurors who served at
Cumberland Courthouse when R. O.
Garrett was tried for the alleged mur-
der of Ray E. S. Pendleton.

They also called on the clerk's of-
fice to meet Clerk W. E. Sandridge.

Mr. Garrett inquired when the next
term of court would convene here.

The party ate dinner in Hotel Am-
herst and left shortly afterward for
Cumberland.

Tobacco Co-operatives Meet.

OXFORD, Sept. 11.—An immense crowd of farmers were in Oxford Saturday to attend the meeting of the Tobacco Growers' Co-operative Association. The meeting was presided over by John G. Morton, president. Talks were made by T. C. Watkins, of South Boston, warehouse director, and C. T. Hall, director from Granville and Person counties. Enthusiastic plans for the year's work were discussed. No date for receiving tobacco in this section has yet been announced by the association.

INDIGESTION
ALL GONE

No More Uneasiness After Meals

That's what people say after taking Dr. Harris' Prescription, the great indigestion remedy, fine for the liver, too! After taking for a few days you feel like new person.

No fake, no dope. Just a physician's prescription that hits the nail on the head. No experiment, as it has relieved thousands. See your druggist today and he hasn't got him to order a bottle.

Sold in Danville by Frank McFall's Drug Store and Clinton's Drug Store; in Schoolfield by Park Place Pharmacy; in Chatham by Chatham Pharmacy; and in Yanceyville by Ham's Drug Store.—adv.

"Honest Abe" Lincoln

Has been thought of, by most people, a poor man. But his biographer, Ida Tarbell, says he left his family over \$110,000. "He lived carefully, paid his bills, helped the weak, and always put something away for the future," believing "that part of his business was to save, save regularly, lay aside something." Make it part of your business to save regularly in the COMMERCIAL BANK. It means comfort and safety for you and your family.
